DESCRIPTION OF SERVICES AND OPTIONS

I - SERVICES: 2 categories are available, according to the level of service required.

A / ECONOMICAL SERVICE

BRACKETS (F3): Cleaning, polishing, disinfection. No control. Counting of the devices. Bulk return in sachets ready for sterilisation. Any pre-established sorting or classification of the brackets is not taken into account (except with option n°4 below).

BANDS (F3): Cleaning, polishing, disinfection. No control. Counting of the devices. Bulk return in plastic bags. Any pre-established classification of bands is not taken into account (except with option n°8 below).

B / COMPLETE SERVICE

- BRACKETS: vestibular standard metal BRACKETS (F2): Cleaning, polishing, disinfection. General control of the brackets. Parting and damage identification by technique and by tooth type. Return in brackets ready for sterilisation (or CD box in option n°4 or 5).

- SELF-LIGATING BRACKETS (F5): Cleaning, polishing, disinfection. General control of each piece. Parting of the damaged brackets (not invoiced). Etching (if required). Opening of the clip. Control of technique and/or prescription (torque). Classification by technique and/or prescription, and by tooth type. Disto-Gingival colour marking + prescription (if required). Two possibilities for packaging: CD-type box (OP4), or sachets ready for sterilisation + empty prepared CD-type box (OP5). (For a small quantity, return only in sachets).

- CERAMIC BRACKETS (F6): Cleaning and disinfection. General control of each piece. Microscopic control to detect fissures. Separation of damaged brackets (unbent) and non-reusable brackets (cleaning bill). Mechanical and/or chemical etching (see etching). Control of technique and/or prescription (torque). Classification by technique and/or prescription, and by tooth type. Disto-Gingival colour marking (if required). Return in brackets ready for sterilisation + empty prepared CD-type box (OP5). (For a small quantity, return only in sachets).

- LINGUAL BRACKETS (F7): Cleaning, polishing, disinfection. General control of each piece. Parting of the damaged brackets (not invoiced). Etching (if required). Opening of the clip. Control of technique and/or prescription (torque). Classification by prescription and by tooth type. Disto-Gingival marking (if required). Two possibilities for packaging: CD-type box (OP4), or sachets ready for sterilisation + empty prepared CD-type box (OP5). (For a small quantity, return only in sachets).

- GUM: “MECHANICAL COMPLETE SERVICE” (Molar and premolar) (F4): This service is adapted to standard bands that are neither ergonomic nor laser-etched. If required, it includes calibration and numbering of the bands. (See marking options).

Cleaning, polishing, disinfection. Control of the vestibular device. Mechanical reforming, calibration and numbering (if required: please refer to options 11 to 13). Parting of the damaged bands (not invoiced). Classification by technique and tooth type. Return in plastic bags. The control of sheaths, should the case arise, is systematically achieved and invoiced (only rectifications) on behalf of OP14. (Separate purchase order is mentioned: in this case this option is automatically achieved).

- “MANUAL” COMPLETE SERVICE (Early molar/ molars) (OP14): Classification by technique and by tooth type. Of which reforming is hand-made, is adapted to upscaled molar bands that are ergonomic. Brand is required. Cleaning, polishing, disinfection. Control of the vestibular device. Manual reforming that respects as much as possible the original ergonomics. Respect of current numbering (or if required a more visible one: please refer to OP12 or OP13). Parting of the damaged bands (not invoiced). Classification by technique and tooth type. Return in plastic bags. The control of sheaths, should the case arise, is systematically achieved and invoiced (only rectifications) on behalf of OP14. Unless the Practitioner is opposed to, this option is automatically achieved.

II - OPTIONS: A solution suited to each need

- DISMANTLING of archwires and luting materials (brackets and bands) (OP1&OP9): We always advise you to give this task to our trust, particularly for delicate devices such as self-ligating, ceramic and lingual brackets.

- Disto-Gingival colour MARKING (brackets) (OP2): Advised for Ricketts and Straight-Wire techniques. Marking using 2 or 4 colours according to the technique. This provides great facility for ceramic and lingual brackets.

- Etching (brackets and bands) (OP6&OP10): This operation is often realised by the manufacturers. Parting the damaged brackets (not invoiced). Etching (if required). Opening of the clip. Control of technique and/or prescription (torque). Classification by technique and/or prescription, and by tooth type. Disto-Gingival colour marking + prescription (if required). Two possibilities for packaging: CD-type box (OP4), or sachets ready for sterilisation + empty prepared CD-type box (OP5). (For a small quantity, return only in sachets).

- Laser etched bands (OP13): Generally, those bands do not need any new marking, unless the Practitioner requests.

- Non-laser etched bands: felt-tip pen with alcohol (OP12): Marking adapted to each Brand. However, be cautious, this marking disappears when it comes in contact with alcohol.

- NON-LASER ETCHED BANDS: biodegradable labels (OP13): Marking more resistant to alcohol, and adapted to each Brand.

Without Brands information: SofiMen marking automatically. Conversion chart included.

SOME ADVICES FOR A FIRST ORDER

- UNDESIRABLE DEVICES (brackets and bands): In case of not wanting the return and subsequent invoicing of a certain number of devices (certain brands, series, techniques...), please specify this in the Purchase Order. Without any specification, all processed and sent devices are invoiced (except for rejects).

- RECOMMENDATIONS FOR ORDER SHIPMENT: 1 / Please send your order after having decontaminated it (no autoclaving for self-ligating brackets with NiTi), in order to protect the employees in case of incomplete opening of the parcel. 2 / Please use sterile cardboard boxes to send your devices. Preferably, send your order by REGISTERED mail to our commercial address in Europe:

SofiMen S.A. 1 Bd Saint Michel, 47 1040 Brussels | Belgium

- RE-SHIPPING - INSURANCE - DECLARED VALUE: The merchandise travels under the responsibility of the addressee (see Conditions of Sale). In spite of the efficiency of DHL and the Belgian Post, there is always a chance that a parcel might get lost. For important orders we recommend that our customers request us to insure the remittance shipment with Declared Value. In this case, the declared value will be the same as the value of our invoice. It is not possible to insure the order at a higher value. The cost of this insurance will be from 6% to 12% of the total invoiced amount, which will be added into the bill. Please indicate this service in the purchase order. All orders exceeding 1000€ will be sent back through DHL, express service with declared value. All orders fewer than 1000€ are marked up 15% for the registered mail fees.

GENERAL CONDITIONS OF SALE IN THE EUROPEAN UNION

The clauses stipulated below are addressed to our European clients and constitute law for both parties.

- TRANSPORTATION: Merchandise shipped by SofiMen S.A. Group or its subcontractors to or within the European Union is under the express responsibility of the addressee. In case of loss or damage caused during transportation, it falls to the addressee to inform the loss and file the claim against the transportation company. Upon the Practitioner’s request, the merchandise can be remitted with insurance of Declared Value. All orders exceeding 1000€ are sent through DHL with a declared value. All orders fewer than 1000€ are marked up 15% for the registered post fees.

- MERCHANDISE: The devices returned to the Practitioner are always the ones that he/she has sent to SofiMen S.A. Group, in identical quantities (except pieces made of resin or plastic: see below*). The possible count, made by the Practitioner, of sent devices, is nothing more than an indication, and does not legally bind SofiMen S.A. Group. Only the remitted and invoiced quantities are contractual. The traceability of our Quality Management System eliminates any accidental mix of the different orders that are sent to us. (*) SofiMen S.A. Group reminds the Practitioners that some “ceramic” devices are in fact composed of decomposed plastic materials or resin. Such devices are destroyed by chemical cleaning and disinfection procedures, and therefore cannot be remitted.

In complete service, the devices considered to be defective or showing anomalies are returned separately and are indicated as such, not invoiced; if considered non-re-usable, cleaning invoiced. The devices are thoroughly controlled and sorted only in complete services. Our services, the separa- tion of remitted pieces is only an indication. In any case, SofiMen S.A. Group cannot take the place of the Practitioner in his/her profession, who is in, the end, the only competent to judge the device and the good utilisation or rectification of the devices. The devices are remitted decontaminated, disinfected, not sterilised and, upon request, in sachets ready for sterilisation by the Practitioner. Niti brackets, CD-type box (brackets) and plastic bags (bands) cannot be used in traditional sterilisation method.

- ADMINISTRATIVE INFORMATION: All orders fewer than 100€ are marked up 15% for the registered post fees. The payment of the invoices will be due after delivery, by means of a bank transfer, cheque, or credit card. The payment addresses are indicated on the invoice. For the European Union, invoice is established in accordance with intra-communauty laws. Taxes and customs duties are paid by the company when the goods destined to the U.E.可能在案件之间抗争的借口，服务，除了对于运输问题，必须在30天内进行，通过电子邮件，传真或邮政，向我们销售地址书面的文件。

In case of accidental degradation during the process, the Practitioner will be indemnified by SofiMen S.A. Group up to an amount of 0.50€ per damaged device (bracket and/or band) or according to any another agreement reached between both parties. In case of a claim or litigation regarding the quality work, the Practitioner commits him/herself to return the full content of the parcel within 45 days after delivery so that the Company may judge whether the claim is justified and acceptable or not. SofiMen S.A. Group commits itself to compensate the Practitioner within 60 days after accepting the damage.

The shipment of an order constitutes the Practitioner’s approval and acceptance of the present general conditions of sale of SofiMen S.A. Group.

PRICE UPDATE IN OTHER CURRENCIES: It is established in Euros for all Europe. It is possible to add another currency. Canadian Dollar (CAD), Czech Koruna (CZK), Hungarian Forint (HUF), Polish Zloty (PLN), Swiss Francs (CHF).
